

# CERTASS

## Freelance Regional Auditors & Assessors Required Nationally

Our UKAS approved Certification Body is well established within the glazing industry and supported by our own Certass Trade Association, the largest Trade Association in the fenestration sector.

Certass is the only Certification Body operating in our sector that is also an Ofqual regulated Awarding Organisation allowing it to write its own regulated qualifications.

The successful candidates will need to be able to demonstrate an excellent working knowledge of the current Building Regulations relevant to replacement window installations in England and Wales. They must be IT literate, have good observational and analytical skills, show both confidence and competency using the internet, have good people skills and be flexible in their approach. The candidates must hold or be willing to work towards a TAQA Assessor qualification. Other training will be provided to the successful candidates able to deliver these key skills.

Covering your own agreed area, these are self-employed contracted positions that you can fit around any other contracted positions you may have.

Potential candidates must not apply if they are currently employed or working with an actively trading glazing business where this may lead to a perceived conflict of Interest, although ex-fitters or fitters looking to retire from the tools are encouraged to apply.

If you are interested in a position, please email your CV and a covering letter to:
